- Adaptability
- Willingness to Learn
- Creativity & Responsibility

PROFESSIONAL SUMMARY

Motivated Bachelor of Science in Information Technology student with an interest in programming, information systems, and digital technology. Has experience working on school-based IT projects and collaborating with teams. Willing to learn new skills, take on challenges, and apply knowledge in a professional environment.

ACADEMIC PROJECTS

Credentials Appointment System

Information System Project

- Designed a web-based appointment concept for students and alumni requesting school credentials.
- Aims to reduce unnecessary trips to school, waiting time, and long queues.
- Includes appointment scheduling, credential-status checking, and appointment-code verification.

Basic Python Programming Projects

- Created beginner-level Python programs involving calculations, receipts, and interactive features.
- Applied basic programming concepts such as variables, input/output, conditions, and calculations.

ACHIEVEMENTS & ACTIVITIES

- **Champion** – E-Sports Boys District Meet 2025
- **Champion** – District Athletic Meet 2024
- **Champion** – Triangular Athletic Meet 2024
- **Champion** – ML Inter-High School Tournament / GoodWill Games 2025
- **3rd Place** – Triangular Athletic Meet 2025
- **Competitor** – Provincial Meet 2024 & Cyberzone Esports Mania 2025

CAREER OBJECTIVE

To gain practical experience in the field of Information Technology, improve my technical and professional skills, and contribute positively to an organization while continuing to learn and grow.

COVER LETTER

Date: September 25, 2026

Hiring Team / Recruitment Department
VirtuaSolutions Outsourcing
Unit 3006 One Corporate Centre, Julia Vargas Ave., Ortigas Center, Pasig City / Taguig City, Metro Manila
Jobstreet Opportunity Reference: Job ID 94875779

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the **IT Operations Specialist** position at Virtua Solutions Outsourcing, as advertised on Jobstreet. As a dedicated Bachelor of Science in Information Technology student at PHINMA Araullo University – South, I am eager to leverage my technical foundation, problem-solving skills, and passion for IT operations to support your team's technical workflows.

My academic coursework and hands-on projects have provided me with a well-rounded skill set directly applicable to IT operations. Through developing systems like the *Credentials Appointment System*, I gained practical experience in workflow optimization, system logic, user verification, and structured data organization. Additionally, my skills in computer troubleshooting, secure coding principles, database concepts, and basic programming (Python and Web Development) enable me to assist effectively in monitoring, maintaining, and troubleshooting IT infrastructure and user platforms.

Virtua Solutions Outsourcing's reputation for delivering top-tier operational support inspires me to contribute my proactive work ethic, adaptability, and strong collaboration skills. I am confident that my strong dedication to continuous learning and digital discipline makes me a valuable entry-level candidate for your IT Operations team.

Thank you for considering my application. I look forward to the opportunity to discuss how my background, technical coursework, and enthusiasm align with the goals of Virtua Solutions Outsourcing.

Sincerely,

Carl Jasper Serdiñola
Applicant / BSITStudent

JOB / EMPLOYER REFERENCE (JOBSTREET LISTING)

VERIFIED JOB OPPORTUNITY

IT Operations Specialist

Virtua Solutions Outsourcing

Source Platform: Jobstreet Philippines

Job ID: 94875779

Location: MetroManila / Hybrid Support

Employment Type: Full-Time / Entry Level

Job URL: https://ph.jobstreet.com/job/94875779

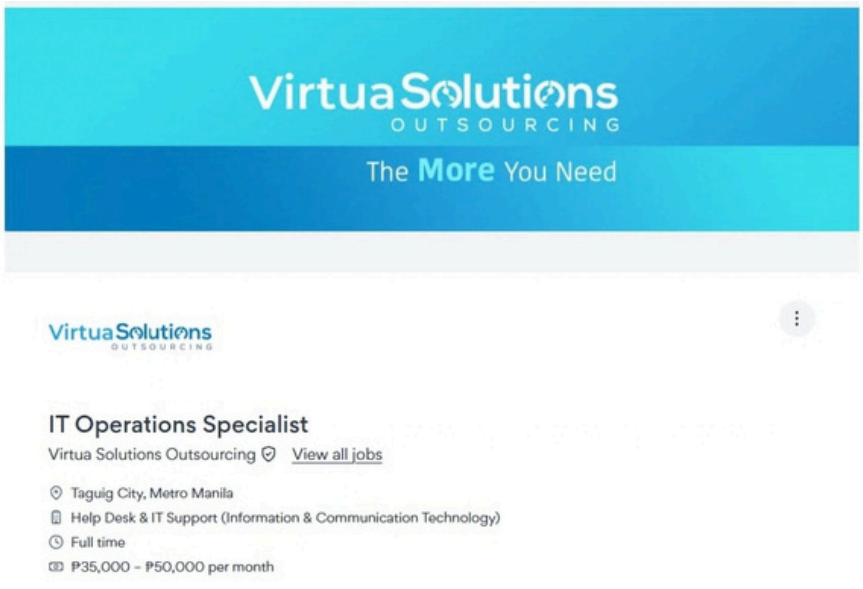

CABC INFORMATION LITERACY EVALUATION

The chosen employer reference was evaluated using the Module 5 CABC framework (Credibility, Accuracy, Bias, Currency) to ensure high-quality information literacy:

Criteria	Evaluation & Evidence in Portfolio
Credibility	Published by Virtua Solutions Outsourcing on Jobstreet Philippines—a verified, established recruitment portal ensuring authentic corporate background and legitimate hiring status.
Accuracy	Details standard entry-level IT operations tasks including systems troubleshooting, account maintenance, system monitoring, and documentation—aligning with IT curriculum competencies.
Bias	The job listing provides an objective description of duties, technical expectations, and working conditions without exaggerated or misleading promotional language.
Currency	Verified as an active job listing (September 2026), reflecting current technical requirements and active industry hiring demands.

RELEVANCE TO CANDIDATE PROFILE

- **Technical Alignment:** The role requires computer troubleshooting and database understanding—skills covered in Carl's BSITcoursework.
- **Systems Management:** The candidate's experience in building a web-based appointment system directly prepares him for operational workflow tracking.

PROCESS & INTEGRITY NOTE

Reflection & Verification Process

This professional portfolio was built for the target role—**IT Operations Specialist** at **Virtua Solutions Outsourcing**—was researched via Jobstreet Philippines. I verified the job post's credibility, currency, and accuracyusingtheCABC framework toensure the information was reliable and appropriate for an entry-level IT student.

Artificial Intelligence (AI) was used strictly as a support tool for formatting, language refinement, and structural alignment. AI helped align my existing academic coursework, technical skills (computer troubleshooting, Python, and system development), and achievements with the specific requirements of the job posting.

In full compliance with academic integrity standards, all details regarding my education at PHINMA Araullo University – South, academic projects (Credentials Appointment System), skills, and athletic achievements are 100% genuine and truthful. No work experience was fabricated. Personal privacy was strictly protected by excluding sensitive data such as government IDs, bank details, or private passwords.
